Catalogue of Mental Health Measures

NEWS & UPDATES

Spring 2024

What's new on the Catalogue?

With funding from Health Data Research (HDR) UK, we have been working on projects that aim to *improve transparency in research* by increasing the accessibility of the Catalogue and other discoverability platforms.

We have been collaborating with DATAMIND and the DATAMIND Super Research Advisory Group to co-develop our ideas and receive insight from members of the public.

This collaboration has taken many forms, including co-creating the content of the projects and discussing it during workshops - one captured here below:

Our projects are wrapping up, and we are excited to implement them on the Catalogue - *stay tuned!* We are also excited to present on them at the Alliance Transparency Showcase by HDR-UK on May 22nd (more on next box).

Upcoming events

22 MAY 2024
Alliance Transparency Showcase
The showcase will cover the 19 HDR-UK-funded projects on improving transparency in research and data access processes.

Team updates

Our team has welcomed Esther, Pauline & Eliza! Together, we are developing our new platform to increase the discoverability of longitudinal datasets from across the world.

Esther   Pauline   Eliza

With that, our expanded team now has an official name: we are the Platforms for Longitudinal Mental Health Data (PALM) team:

PALM
Platforms for Longitudinal Mental Health Data

& our team wishes you all a happy Spring!
